THE INSTRUCTIONS FOR REMOTE E-VOTING AND VOTING AT THE MEETING ARE AS UNDER:

1. The remote e-Voting period begins on 25th September 2020 at 9:00 A.M. (IST) and ends on 27th September, 2020 at 5:00 P.M. (IST). During this period, Members of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date of 21st September, 2020 may cast their vote by remote e-Voting. The remote e-Voting module shall be disabled by NSDL for voting thereafter. Once the vote on a resolution is cast by the Member, the Member shall not be allowed to change it subsequently.
2. The details of the process and manner for remote e-Voting are explained herein below: Step 1: Log-in to NSDL e-Voting system at <https://www.evoting.nsdl.com/>
Step 2: Cast your vote electronically on NSDL e-Voting system.

Details on Step 1 is mentioned below:

How to Log-in to NSDL e-Voting website?

1. Visit the e-Voting website of NSDL. Open web browser by typing the following URL: <https://www.evoting.nsdl.com/> either on a Personal Computer or on a mobile.
2. Once the home page of e-Voting system is launched, click on the icon “Login” which is available under ‘Shareholders’ section.
 - a) A new screen will open. You will have to enter your User ID, your Password and a Verification Code as shown on the screen. Alternatively, if you are registered for NSDL e-services i.e., IDEAS, you can log-in at <https://eservices.nsdl.com/> with your existing IDEAS login. Once you log-in to NSDL e-services after using your log-in credentials, click on e-Voting and you can proceed to Step 2 i.e., cast your vote electronically.
3. Your User ID details will be as per details given below:
 - a) For Members who hold shares in demat account with NSDL: 8 Character DP ID followed by 8 Digit Client ID (For example if your DP ID is IN300*** and Client ID is 12***** then your user ID is IN300***12*****).

 - b) For Members holding shares in Physical Form: EVEN Number followed by Folio Number registered with the company (For example if folio number is 001*** and EVEN is 110453 then user ID is 110453001***).
4. **Your password details are given below:**
 - a) If you are already registered for e-Voting, then you can use your existing password to login and cast your vote.
 - b) If you are using NSDL e-Voting system for the first time, you will need to retrieve the ‘initial password’ which was communicated to you. Once you retrieve your ‘initial password’, you need to enter the ‘initial password’ and the system will force you to change your password.
 - c) How to retrieve your ‘initial password’?
 - (i) If your email ID is registered in your demat account or with the Company, your ‘initial password’ would be communicated to you on your email ID. Trace the email sent to you from NSDL from your mailbox. Open the email and open the attachment i.e.a .pdf file. Open the .pdf file. The password to open the .pdf file is your 8 digit client ID for NSDL account, last 8 digits of client ID for CDSL account or folio number for shares held in physical form. The .pdf file contains your ‘User ID’ and your ‘initial password’.
 - (ii) If your email ID is not registered, please follow steps mentioned below in process for those shareholders whose email IDs are not registered.
5. If you are unable to retrieve or have not received the “Initial password” or have forgotten your password:
 - a) Click on “Forgot User Details/Password?”
(If you are holding shares in your demat account with NSDL or CDSL) option available on www.evoting.nsdl.com.
 - b) “Physical User Reset Password?” (If you are holding shares in physical mode) option available on www.evoting.nsdl.com.
 - c) If you are still unable to get the password by aforesaid two options, you can send a request at evoting@nsdl.co.in mentioning your demat account number/folio number, your PAN, your name and your registered address.
 - d) Members can also use the OTP (One Time Password) based login for casting the votes on the e-Voting system of NSDL.
6. After entering your password, tick on Agree to “Terms and Conditions” by selecting on the check box.
7. Now, you will have to click on “Login” button.
8. After you click on the “Login” button, Home page of e-Voting will open.

Details on Step 2 is mentioned below:

How to cast your vote electronically on NSDL e-Voting system?

1. After successful login as provided in Step 1, you will be able to see the Home page of e-Voting. Click on e-Voting. Then, click on Active Voting Cycles.
2. After clicking on Active Voting Cycles, you will be able to see all the companies "EVEN" in which you are holding shares and whose voting cycle is in active status.
3. Select "EVEN" of Lokesh Machines Limited for which you wish to cast your vote.
4. Now you are ready for e-Voting as the Voting page opens.
5. Cast your vote by selecting appropriate options i.e., assent or dissent, verify/ modify the number of shares for which you wish to cast your vote and click on "Submit" and also "Con?rm" when prompted.
6. Upon con?rmation, the message "Vote cast successfully" will be displayed.
7. You can also take the printout of the votes cast by you by clicking on the print option on the con?rmation page.
8. Once you confirm your vote on the resolution, you will not be allowed to modify your vote.

Process for those shareholders whose e-mail IDs are not registered with the depositories for procuring user id and password and registration of e-mail IDs for e-Voting for the resolutions set out in this notice:

PERFORMANCE REVIEW:

The turnover decreased by 34%, during the year.

- During the year, the Company recorded Revenue from Operations by way of Net Sales of Rs.125.85 Crores as against Rs.190.45 Crores in 2018-19 a reduction of about 34%.
- The Machine Tool Division has registered a de-growth in terms of sales value as compared to the previous year; primarily lead by the General Purpose machinery division which itself showed a sharp fall down of around 45% as compared to previous year. GPM Machines export sale has also shown considerably lower numbers in comparison to previous financial year. Sale of SPM machines registered marginal fall during the year in terms of total sales value.
- The Component division had also shown a decreased movement in comparison to previous year.
- The overall reduction in Turnover and the loss suffered by the Company was due to the slowdown of the economy especially in Auto sector. This has resulted into poor performance of the Company.

IMPACT OF COVID-19 AND FUTURE COURSE OF ACTIONS

The spread of COVID-19 virus caused global disruption, with negative impact on human health, business enterprises and the global economy in general. The rapid outbreak of the COVID-19 pandemic during Q4 of FY 2019-20, has severely impacted the physical and financial health of people across India and to prevent the contagion in the Country, phases of nationwide lockdown was announced by the Government of India ("GOI").

Based on the directive given by the GOI for closure of activities to control COVID-19 pandemic, your Company suspended its production across all its factory locations, manufacturing plants since March 23, 2020 and resumed

operations in its plants during second week of May 2020 in a phased manner, after obtaining necessary approvals from the relevant authorities. Your Company has been abided and compliant to the Ministry of Home Affairs and State Government guidelines on administration and social distancing.

During this uncertain period, your Company has implemented detailed business continuity plans with its partners and suppliers in an effort to secure the continuation of operations while caring for the health, safety and well-being of its employees.

As a result of COVID-19, the demand for your Company's products has seen a drastic slowdown and has hampered the supply chain for the automotive industry as a whole. This in turn has an impact on the supply chain of your Company and could pose challenges relating to procurement of raw materials in the foreseeable future.

Your Company is taking a number of measures to mitigate substantial negative impact including manpower, cost control and in close collaboration with customers, banks, financial institutions, suppliers and employees. These actions are an acknowledgement of current events as well as uncertainty around the timing and showing path of recovery.

Your Company is prepared to focus its efforts on securing supplies, manufacturing and logistics for growth amidst this crisis and also has plans to develop its market for its products to enhance visibility of demand and customer needs. Liquidity and other risks are being monitored on an on-going basis. The Company has taken Cash flow control and overhead control measures to manage the operations. Weekly review mechanism adopted to review the account receivables and measures taken to control the capital expenditure.

However, with a good monsoon, the rural demand is expected to be robust and therefore we foresee business from customers catering to this sector.

FUTURE OUTLOOK

The automotive industry in India has been witnessing a slowdown and 2019-20 was a challenging year for the Company in terms of Sales as well as Profit. The Indian automotive and related industries witnessed several head winds in the Financial year 2019-20 due to slowdown in the economy and regulatory changes such as emission norms, axle load & other norms, which hindered the industry's performance.

The impact of COVID-19 will be felt in the Financial Year 2020-21 as it is expected to further drag the slowness in the auto industry and the revival is bound to be slow. However, the Tractor industry expects a strong growth in the year 2020-21 due to good rainfall in the previous year, increased Minimum Support Prices, credit availability, positive farm sentiment and normal monsoon expected in the current year. The long-term outlook remains positive for the Automotive Industry with most major global players having a base in India for manufacturing, global sourcing and engineering.

Your directors are confident of putting in an improved performance over the previous year.

1. The CNC machines division is expected to post substantial growth with improving market conditions. While the current capacity utilization is at its peak, the company is making significant improvements in productivity improvement and further increase in capacity utilization thus squeezing the assets to the maximum. With Europe showing signs of recovery and situation in Russia easing, there would certainly be an uptick in the Export performance as well.
2. The SPM order book reflects a reasonable growth. Almost all the orders are from the existing customers only for capacity expansion and not for any new products.
3. On the component division front, the Connecting Rod production is in stabilization mode. With a reasonable monsoons prediction, the Tractor industry in particular and the Auto sector in general are expected to do well and thereby help us increase the overall revenues.

DIVIDEND

In view of inadequacy of profit, your director's regrets to recommend any dividend for the financial year ended 31st March, 2020.

TRANSFER TO GENERAL RESERVE

The Company does not propose to transfer any amount to General Reserve for the Financial year 2019-20.

SHARE CAPITAL

The paid-up Equity Share Capital as on 31st March, 2020 was Rs. 1789.67 Lakhs

SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES

The company does not have any Subsidiary company either in India or abroad.

It may vary due to future Economic, Pandemic and Political Developments, both in the Indian and international economies and due to other factors beyond control.

Industry Structure and Developments:

The Indian machine tools sector has been witnessing a slowdown and FY 2019-20 was a challenging year for the Company in terms of Sales as well as Profit. The Indian automobile sector and allied industries witnessed several headwinds in the financial year 2019-20 due to slowdown in the economy and regulatory changes such as emission norms, axle load and other norms, which hindered the Industry's performance. During the year Medium and Heavy Commercial Vehicle Industry and Tractor industry registered a negative growth which has severely impacted the Auto Component Industry. Due to delayed monsoon and flooding, the Tractor industry witnessed a negative growth during the FY 2019-20.

With the advent of BS6 from April 2020, the industry was praying for a change in sentiment and fortunes. But much to everybody's dismay, a totally unforeseen event in the form of a pandemic COVID-19 has disrupted the entire world and our country was no exception. Due to on-going Covid-19 Pandemic, a lockdown was imposed by the Central Government in March 2020 and the Company has to shut down its manufacturing operations and partially resumed operations subsequently on second week of May, 2020 with minimum workforce as per the guidelines issued by the Ministry of Health and Family Welfare. The Company has taken necessary steps to build in all the safety and precautionary measures across all its facilities and plants. The Impact of Covid-19 shall be felt in the Financial Year 2020-21 as it is expected to further drag the slowness in the auto industry and the revival is bound to slow.

Opportunities and Threats:

The growth opportunity for the machine tool Industry is in proportion with growth of other industries. During the last few years, the phenomenal growth in Automobile industry has largely contributed to the growth of machine tool industry and opportunities lie in further growth in Automobile Industry as several multinational car manufacturers are shifting a part of their supply chain & sourcing base to India.

Besides Auto component manufacturers, a host of Engineering, Medical, Defense and Power sector based industries are also contemplating about moving their supply chain to India. This provides a huge opportunity for Indian manufacturers and this would provide a corresponding opportunity to Machine Tool Manufacturers.

The main threat to which the Industry is exposed to is volatility of commodity prices affecting input costs structure. Volatility and seasonality have a significant impact on capacity utilizations in the Industry which would result in stiff price competition in lean periods. However the Company strives to create sustainable profitable growth by continuing focus on technology developments/ up gradation and quality of its products to its diversified customer base which will lead the Company towards a competitive edge in the market.

Segment –wise Performance

Machine Tool Division: In line with the Industry performance as mentioned above, your company also is adding significant capacities in the coming years both in manufacturing as well as marketing. Further, to cater to the new opportunities emerging from Non- Automotive industries, the technology will be upgraded on par

with the Global levels by entering into strategic tie ups with leading European and South Asian companies. With an efficient innovative management team and vast experience in Development, Production, Supply of Machine Tools, Jigs, Fixtures and Accessories Improved and sustained efforts of the Company for enhancing the technological competencies, cost competitiveness and increased market reach are expected to yield good results in the near future.

Component Division: The Company has a rich experience of 36 years in automobile sector and in manufacturing of auto components such as Cylinder Blocks, Cylinder Heads and Connecting Rods. With significant demand from M&M, the company is adding capacities to meet the demands.

Outlook

The Long term outlook for the industry is optimistic based upon the product innovation as most major global players having a base in India for manufacturing, global sourcing and engineering. The domestic demand will continue to grow due to a pent up demand on account of a prolonged slow down. The Tractor Industry expects a strong growth in the Year 2020-21 due to good amount of rainfall, increase of Minimum Support Prices, credit availability and a, positive farm sentiment.

Risks and Concerns

The Company's growth is linked to growth of the Automobile Sector which is cyclical in nature. This cyclical nature might affect the demand ultimately has an effect on the order book of the Company. However the Company is focusing towards export orders and non-automotive business to counter the risk.

Our margin and cost effectiveness may be affected due to change in the prices of raw materials, power and other input costs which can significantly impact the profitability. Careful monitoring of the above cost can be very encouraging.

Discussion on Financial Performance with respect to operational performance

During the year the Company recorded Revenue from operations by way of Sales of Rs. 12,584.07 lakhs as against Rs. 19,044.07 lakhs in the FY 2018-19, a decrease of about 34% in sales value. During the year Company has suffered a loss of Rs. 468.42 lakhs, whereas previous year 2018-19 Company has registered a profit of Rs. 676.54 lakhs.

KEY FINANCIAL RATIOS

Sl.No.	Particulars	2019-20	2018-19
1	Debtors Turnover	5.14	5.86
2	Inventory Turnover	1.27	1.99
3	Interest Coverage Ratios	1.07	2.50
4	Current Ratio	1.20	1.17
5	Debt Equity Ratio	0.57	0.54
6	Operating Profit Margin (%)	2.87	12.06
7	Net Profit Margin (%)	(3.71)	3.53
8	Return on Net Worth(%)	(3.37)	4.69

1. The change in Inventory Turnover Ratio is due to reduction in sales. The sales have been impacted due to slowdown in the auto industry.
2. Interest coverage ratio is at 1.07 as compared to 2.50 of previous year. This is because EBITDA (Earnings before Interest, taxes, depreciation and amortization) has come down due to decrease in sales.
3. The change in Operating Profit margin, Net Profit Margin and Return on Net Worth is due to drastic fall down of sales and the slowness of the Automobile market.

Internal Control Systems and their adequacy

Your Company has effective internal control systems commensurate with the size of the Company. This is further supplemented by an internal audit being carried out by an external firm of Chartered Accountants. The internal auditors conduct audits of the performance of various departments, functions and locations and also statutory compliances based on an annual audit plan chalked out in consultation with the Audit Committee. They report their observations/ recommendations to the Audit Committee of the Board of Directors, which comprises two non-executive Independent Directors. The Audit Committee reviews the Audit observations and follows up on the implementation of the suggestions and remedial measures and also recommends increased scope of coverage, wherever necessary.

Human Resources and Industrial Relations

Employees are the main resource for the Company. The Company has done its best to retain the best employees and create a favorable work environment that encourages the young credible employees to perform innovatively and train them in a sophisticated manner with implementation of new technologies.

During the year under review all employees worked innovatively and supported productivity in an encouraging manner and high technological changes have been initiated in the process of production resulting in to cost effective quality production.

The staff strength of the Company as on 31st March, 2020 was 957 (including trainees, employees on contract).

Opinion

We have audited the accompanying financial statements of LOKESH MACHINES LIMITED ("the company"), which comprise the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (herein after referred to as "the financial statements")

In our opinion and to the best of our information and according to the explanations given to us the accompanying financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standard) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its loss (total comprehensive loss), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditors responsibility for the Audit of Financial Statements section of our report. We are independent of the company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of financial statements under the provisions of the Act and the Rules made there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key Audit matters are those matters that in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act read with relevant rules issued there under and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from

fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1) As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure A, a statement on the matters specified in the paragraph 3 and 4 of the Order, to the extent applicable.

ANNEXURE-B TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **LOKESH MACHINES LIMITED**, HYDERABAD ("the Company") as of 31st March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of directors of the company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020**1. CORPORATE INFORMATION:**

Lokesh Machines Limited (“the Company”) was incorporated on December 17, 1983 under the Companies Act, 1956. The Company is listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). At present the Company is engaged in the business of manufacture of Special Purpose Machines (SPM), General Purpose Machines/CNC Lathes (GPM), Connecting Rods and machining of Cylinder Blocks and Heads.

These Financial Statements were approved by the Board of Directors and authorized for issue on 29th July, 2020.

2. BASIS OF PREPARATION:

These Financial Statements prepared by the Company complying in all material respects with the notified Accounting Standards under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and the relevant provisions of the Companies Act, 2013 and in accordance with the generally accepted accounting principles in India.

The financial statements have been prepared on a historical cost basis, except for financial instruments which have been measured at fair value at the end of each reporting period, as explained in the accounting policies mentioned below.

3. SIGNIFICANT ACCOUNTING POLICIES:**a) Statement of Compliance:**

In accordance with the notification issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards (referred to as “Ind AS”) notified under the Companies (Indian Accounting Standards) Rules 2015 with effect from April 01,2016.

b) Critical Accounting Estimates and Judgments

The preparation of Company’s financial statements requires management to make accounting estimates, assumptions and judgments that affect the reported amounts of revenues, expenses, assets and liabilities and the accompanying disclosures of contingencies at the end of the reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amounts of assets or liabilities affected in future periods.

The areas involving critical estimates or judgments are –

- Useful lives of property plant and equipment and intangible assets
- Measurement of defined benefit obligation.
- Estimation of impairment
- Estimation of Provision and Contingent liabilities
- Recognition of deferred taxes

c) Current Vs Non-current classification:

The Company presents assets and liabilities in the balance sheet based on current / non-current classification.

An asset is treated as current when it satisfies the below mentioned criteria:

- i. Expected to be realized or intended to be sold or consumed in normal operating cycle;
- ii. Expected to be realized within twelve months after the reporting period, or
- iii. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non- current assets.

A liability is classified as current when it satisfies the below mentioned criteria:

- i. Expected to settle the liability in normal operating cycle;
- ii. Due to be settled within twelve months after the reporting period, or
- iii. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non- current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents.

d) Property, Plant and Equipment:

Property, plant and equipment are stated at cost net of input tax credits, less accumulated depreciation and accumulated impairment losses, if any. Cost comprises the purchase price and all attributable cost, to bring the asset to its working condition for its intended use. Borrowing costs relating to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to put to use.

The Company adopted cost model as its accounting policy, in recognition of the property, plant and equipment and recognizes transaction value as the cost.

Capital work in progress includes cost of property, plant and equipment under installation/under development as at the balance sheet date.

An item of Property, Plant and Equipment is derecognized upon disposal or when no future economic benefits are expected from its use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in the Statement of Profit and Loss. Property, Plant and Equipment which are found to be not usable or retired from active use or when no further benefits are expected from their use are removed from property, plant and equipment and the carrying amount net of scrap value, if any is charged to Statement of Profit and Loss.

The improvements/modifications carried on the lease hold land/property are recognized as lease hold improvements and are written off over the primary lease period or the life of such improvement whichever is lower.

Estimated useful lives of the assets are as follows :

Type of the Asset	Method of Depreciation	Useful life considered(years)
Building-Factory	SLM	30
Plant and Machinery	SLM	15
Furniture and Fixtures	WDV	10
Vehicles	WDV	8
Office Equipment	WDV	10
Miscellaneous Equipment	WDV	15

e) Intangible Assets:**Computer software:**

Computer software is recognized at cost and is amortized over the useful life as estimated by the Management which is about 3 years for all of the intangible computer software assets.

f) Impairment of non-financial assets:

- i. The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal/external factors. An impairment loss is recognized wherever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the greater of the asset's net selling price and value in use.
- ii. Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the asset do no longer exist or have decreased.

g) Leases:

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company has adopted Ind AS 116 - Leases, using "Modified retrospective approach" with effect from 1 April 2019 and accordingly these financial statements are prepared in accordance with the recognition and measurement principles laid down in Ind AS 116. Also, the application of Ind AS 116 did not have any significant impact on the financial statements considering the number of assets under operating lease arrangements of the Company.

At the date of commencement of lease, the Company recognises a Right-of-use asset ("ROU") and a corresponding liability for all lease arrangements in which it is a lessee, except for leases with the term of twelve months or less (short term leases) and low value leases. For short term and low value leases, the Company recognizes the lease payment as an operating expense on straight line basis over the term of lease.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate explicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases.

h) Inventories:

Raw materials, stores and spares, work in progress and finished goods are stated at the lower of cost and net realizable value. Costs are assigned to individual items of inventory and are determined based on first in first out basis (FIFO).

Cost of raw materials comprises cost of purchases and includes all other costs incurred in bringing the inventories to their present location and condition. Cost of work-in-progress and finished goods comprises direct materials, direct labor and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Spare parts, stand-by equipment and servicing equipment are recognized in accordance with this Ind AS-16 when they meet the definition of Property, Plant and Equipment. Otherwise, such items are

classified as inventory. Spare parts, stand-by equipment and servicing equipment are stated at the lower of cost or net realizable value.

i) Revenue recognition:

Revenue is measured at the fair value of consideration received or receivable and is recognized to the extent that it is probable that the economic benefits will flow to the Company. Specifically, the following basis is adopted for various sources of income:

Sale of goods:

Revenue is recognized when the significant risks and rewards of ownership of goods have passed to the buyer, which generally coincides with delivery. Amounts disclosed as revenue are exclusive of excise duty and net of returns, trade allowances, rebates, and value added taxes. Revenue from export sales is recognized on the date of bill of lading, based on the terms of export.

j) Other income

Interest income:

Interest income primarily comprises of interest on Margin money deposits with the banks, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of financial asset.

k) Foreign currency transactions:

i. Functional and Reporting Currency:

The Company's functional and reporting currency is Indian National Rupee.

ii. Initial Recognition:

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amounts the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

iii. Conversion on reporting date:

Foreign currency monetary items are reported using the closing rate. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

iv. Exchange Differences:

Exchange difference arising on the settlement of monetary items or on reporting monetary items of Company at rates different from those at which they were initially recorded during the year or reported in previous financial statements are recognized as income or as expenses in the year in which they arise.

l) Retirement and other employee benefits:

i. Employer's contribution to Provident Fund/Employee State Insurance which is in the nature of defined contribution scheme is expensed off when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the fund.

ii. Gratuity liability is in the nature of defined benefit obligation. Such liability is provided based on independent actuarial valuation on projected unit credit method made at the end of each financial year as per the requirements of Ind AS 19 "Employee Benefits". Actuarial gain/ (loss) in the valuation are recognized as other comprehensive income for the period.

iii. Compensated absences which are in the nature of defined benefit obligation are provided for based on estimates of independent actuarial valuation on projected unit credit method made at the end of each financial year as per the requirements of Ind AS 19 "Employee Benefits".

m) Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

n) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Executive Management.

o) Dividends:

Annual dividend distribution to the shareholders is recognized as a liability in the period in which the dividend is approved by the shareholders. Any interim dividend paid is recognized on approval by Board of Directors. Dividend payable and corresponding tax on dividend distribution is recognized directly in equity.

p) Earnings per Share:

Basic earnings per share are calculated by dividing the profit for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period, net off treasury shares. For the purpose of calculating diluted earnings per share, the profit for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

q) Provisions:

Provisions are recognized when there is a present legal or constructive obligation that can be estimated reliably, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognized for future operating losses.

Any reimbursement that the Company can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset. However, this asset may not exceed the amount of the related provision.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provisions are reversed. Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provisions due to the passage of time is recognized as a finance cost.

r) Contingencies:

Where it is not probable that an inflow or an outflow of economic resources will be required, or the amount cannot be estimated reliably, the asset or the obligation is not recognized in the statement of balance sheet and is disclosed as a contingent asset or contingent liability. Possible outcomes on obligations/rights, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent assets or contingent liabilities.

s) Taxes on Income:

Tax expense comprises of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the respective laws of the state. Current tax includes taxes to be paid on the profit earned during the year and for the prior periods.

Deferred income taxes are provided based on the balance sheet approach considering the temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

The carrying amount of deferred tax assets are reviewed at each balance sheet date. The Company writes-down the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient future taxable income will be available against which deferred tax asset can be realized. Any such write-down is reversed to the extent that it becomes reasonably certain that sufficient future taxable income will be available.

t) Prior period items:

In case prior period adjustments are material in nature the Company prepares the restated financial statement as required under Ind AS 8 - "Accounting Policies, Changes in Accounting Estimates and Errors". Immaterial items pertaining to prior periods are shown under respective items in the Statement of Profit and Loss.

u) Cash and cash equivalents:

Cash and cash equivalents include cash on hand and at bank, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to a known amount of cash which are subject to an insignificant risk of changes in value and are held for meeting short-term cash commitments.

For the Statement of Cash Flows, cash and cash equivalents consists of short term deposits, as defined above, net of outstanding bank overdraft as they are being considered as integral part of the Company's cash management.

v) Financial Instrument:

A financial instrument is any contract that gives rise to a financial asset of one entity and financial liability or equity instrument of another entity.

a. Financial Asset:**Initial recognition and measurement**

All financial instruments are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit & loss account transaction costs that are attributable to the acquisition of the financial asset, purchase or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place are recognized on the trade date i.e. the date that the company commits to purchase or sell the asset.

Subsequent Measurement

For the purpose of subsequent measurement financial assets are classified as measured at:

- 1) Amortized Cost
- 2) Fair value through profit and loss (FVTPL)

3) Fair value through other comprehensive income (FVTOCI)

Financial Asset measured at amortized cost

Financial Assets held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding are measured at amortized cost using effective interest rate (EIR) method. The EIR amortization is recognized as finance income in the statement of Profit & Loss.

The company while applying above criteria has classified all the financial assets (except investments in equity shares) at amortized cost.

Financial Assets Measured at fair value through other comprehensive income

Financial assets that are held within a business model whose objective is achieved by both, selling financial assets and collecting contractual cash flows that are solely payments of principal and interest, are subsequently measured at fair value through other comprehensive income. Fair value movements are recognized in the other comprehensive income (OCI). Interest income measured using the EIR method and impairment losses, if any are recognized in the Statement of Profit and Loss. On derecognition, cumulative gain or loss previously recognized in OCI is reclassified from the equity to other income' in the Statement of Profit and Loss.

Financial Assets at fair value through profit or loss (FVTPL)

Financial Asset is measured at fair value through Profit & Loss if it does not meet the criteria for classification as measured at amortized cost or at FVTOCI. All fair value changes are recognized in the statement of profit & loss.

De-recognition of Financial Assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the debt instruments, that are measured at amortized cost e.g., loans, debt securities, deposits, trade receivables and bank balance.

Expected credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive.

The management uses a provision matrix to determine the impairment loss on the portfolio of trade and other receivables. Provision matrix is based on its historically observed expected credit loss rates over the expected life of the trade receivables and is adjusted for forward looking estimates.

Expected credit loss allowance or reversal recognized during the period is recognized as income or expense, as the case may be, in the statement of profit and loss. In case of balance sheet, it is shown as reduction from the specific financial asset.

b. Financial Liabilities.

Initial recognition and measurement

Financial liabilities are recognized initially at fair value plus any transaction cost that are attributable to the acquisition of the financial liability except financial liabilities at FVTPL that are measured at fair value.

Subsequent Measurement

Financial liabilities are subsequently measured at amortized cost using the EIR method. Financial liabilities carried at fair value through profit or losses are measured at fair value with all changes in fair value recognized in the Statement of Profit and Loss.

Financial Liabilities at amortized cost

Amortized cost for financial liabilities represents amount at which financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount.

All the financial liabilities of the company are subsequently measured at amortized cost using Effective Interest method.

De recognition of Financial Liabilities

A financial liability shall be derecognized when, and only when, it is extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expires.

v) Offsetting.

Financial assets and financial liabilities are off set and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

35. Fair Value Measurement:

The Company measures financial instruments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for such asset or liability, or in the absence of a principal market, in the most advantageous market which is accessible to the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted market prices) in active markets for identical assets or liabilities.
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurements is directly or indirectly observable.
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

The operations of the company are largely confined in India, with export contributing to approximately 3.27% of its annual net sales. The management views the Indian market and export market as distinct geographical segments.

41. Financial Risk Management

The Company's activities expose it to market risk, credit risk and liquidity risk. Company's overall risk management focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance.

I. Market Risk

Market risk is the risk of loss of the future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and borrowings.

- a. **Foreign Currency Risk** - Foreign Currency Risk is the risk of impact related to fair value or future cash flows of an exposure in foreign currency, which fluctuate due to change in foreign currency rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to impact of raw materials and spare parts, capital expenditure and export of Machines. The company does not enter into any derivative instruments for trading or speculative purposes and the impact foreign currency risk is negligible.

- b. **Interest Rate Risk** – Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market rates relates primarily to the Company's short term borrowing. The Company constantly monitors the credit markets and rebalances its financing strategies to achieve an optimal maturity profile and financing cost. Since all the borrowings are on floating rate and constantly monitored, no significant risk of change in interest rate.

II. Credit Risk

Credit risk arises when a customer or counterparty does not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing/investing activities, including deposits with banks. The company has a prudent and conservative process for managing its credit risk arising in the course of its business activities. The Company is receiving payments regularly from its customers and hence the Company has no significant credit risk.

III. Liquidity Risk

Liquidity risk is defined as the risk that the company will not be able to settle or meet obligations on time or at reasonable price. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's treasury team is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts based on expected cash flows.

43. The Company considered the uncertainty relating to the COVID-19 pandemic in assessing the recoverability of receivables and certain investments. For this purpose, the Company considered internal and external sources of information up to the date of approval of these financial statements. The Company has also used the principles of prudence in applying judgements, estimates and assumptions including sensitivity analysis and based on the current estimates, the Company expects to fully recover the carrying amount of receivables, investments and other assets. As the outbreak continues to evolve, the Company will continue to closely monitor any material changes to future economic conditions. Though the profitability of the company has fallen partly due to Covid-19, the concept of "Going concern" of the company is not affected as on this date
